What are words If you really don't mean them When you say them What are words If they're only for good times Then it's off? When it's love Yeah, you say them out-loud those words They never go away They live on, even when we're gone

What are words 什么是诺言?

If you really don't mean them When you say them 如果你说的时候不是发自内心的

What are words 什么是诺言?

If they're only for good times Then they don't 如果那只针对好时光,那它就不是诺言

When it's love 当爱至情浓处时

Yeah, you say them out-loud those words 你大声喊出自己的心声

They never go away 那些话,永远都不会褪色

They live on, even when we're gone 即使我们都离去了,它们会一直存在,直到海枯石烂。

With the coming of internet, more and more people make online friends. Can people find true friends online? what is your opinion? Please give at least two reasons to support your idea.

第一段

第1句	改写题目(举例子扩题目)
第2句	简述立场,说明下文讨论内容

It is to be noted that with the coming of internet, there is an increasing number of people making friends online (或者你可以照抄题目原句: with the coming of internet, more and more people make online friends). However, an interesting argument to be pointed out is that you may have 500 friends in Wechat. But you might never talk to or meet some of them. Thus, this essay will argue that it is not likely for people to make true friends online. This essay will illustrate this argument in 3 aspects.

第二段:分析段(可适当举例)

第3句	原因1
第4句	原因2
第5句	原因3

To begin with, it could be really hard to have deep conversation with the people you only met online. This is because you have not met face to face. And it could be hard for you to decide if this guy is trustworthy, since it is easier for your online friends to hide information from you. Additionally, it is to be noted that the danger of making friends online always exists. For instance, there were reports on online-fraud all the time. And some of the victims turned out to be deceived by their "online friends".

结论段: 总结全文/展望未来/表决心

第6句 重申主题,总结观点

As it can be seen from the (pie) chart, on the top of the list is the number of working people who seldom do any physical exercises. This accounts for 60%. This indicates that the majority of the working people do not do physical exercises. This is likely due to the lack of spare time and the pressure from work. Additionally, the chart also points out that the percentage of working people doing exercises once a month is 25%. Further, the number of people doing regular exercises only takes up 15% of the total population. This indicates that working people typically lack physical exercise. This may result in poor health condition and can lead to a significant negative impact on their work efficiency.

常用句型和短语

地点类范文—

It is exciting to visit different places. As you travel, you will see typical beautiful scenery of the region. Besides, you can meet and make friends with people of different colors and races. Finally, you can get to know the customs and living habits of the local people.

Today people are so fond of travelling that tourism has become one of the fastest growing industries in most countries. The main reason why people travel is, perhaps for pleasure. For instance, having worked hard throughout the weekdays, people will find a weekend trip to the nearby mountains or beaches a real relaxation. For another example, spending an annual holiday travelling abroad is an especially satisfying experience for those who do not have much of an opportunity to be away from their homelands. When people return from their travel, they will generally feel fresh and energetic, ready to work harder. Travelling is also one of the best means for learning. You may have read or heard about something but you can never get an accurate picture of it until you see it for yourself. Seeing is believing.

地点类范文— —餐馆

Everyone has his or her own favorite restaurant. If you ask me what my favorite restaurant is, my answer would be, the Smiling Dragon. This essay will illustrate the reasons why I like it so much as follows.

Firstly, it has to do with the fact that I wanted to introduce my foreign English teacher to some Chinese dishes. I always enjoy a visit the Smiling Dragon for a number of reasons. Firstly, the food is of a good quality and well prepared. For example, they prepare only fresh fish, which they purchase at the fish market in Dalian. Secondly, the waiting staff is always friendly, polite, and helpful. Additionally, they tend to any need you may have efficiently. Therefore, I never feel embarrassed to invite my family, friends, or foreigners to join me there for a meal. In conclusion, It is just hard to imagine what my life would be like without Smiling Dragon restaurant

人物类范文

My father was always a good role model for me as I was growing up. He's hard-working, patient and understanding. He also got a good sense of humor and seems to get on well with everybody. Hopefully I have inherited some of these traits.

I admire my father because I think he brought me and my brothers up well; he was quite strict but always fair, and he has always been someone I can turn to for advice. I think my father set a good example by working hard and having a positive outlook on life. I remember that he used to leave for work early and come home quite late, but he always made time for me and my brothers.

Everyone has his or her own favorite gift. Some like clothing, while others fancy toys. If you ask me what my favorite gift is, my answer would be the Apple laptop that I got from my father. When I first saw it, I was taken by its stream-lined and trendy design. I love it so much that I always take it with me wherever I go.

It really made my life much more easier. Firstly I could video chat with my friends from a long distance. Additionally, I could send my assignments and questions to my teacher or search on internet by using my computer so that I could get a quick guide . I also find it much faster to take down class notes by typing than writing on a notebook. Therefore, I still have to say that it has brought me a lot of convenience in life. I want to thank my father for all the things he has given me. They all remind me of his love and that I must work hard to live up to his expectations.
